THE INFORMATION CONTAINED IN THIS DRAWING IS THE SOLE PROPERTY OF WORLD WIDE FITTINGS. ANY REPRODUCTION IN PART OR AS A WHOLE WITHOUT THE WRITTEN PERMISSION OF WORLD WIDE FITTINGS IS PROHIBITED.
China Manufacturing: We utilize the most sophisticated manufacturing techniques available insuring that from prototypes to high volume production quantities, customers requirements are met.

China Assembly: We recognize the importance of proper assembly, packing, and logistical support.
Design and development of our own production equipment in house is also a key function of our Suzhou facility. Continuous improvement in our production process has enabled us to expand production to meet growing customer demand.

Automation is key to our future development and growth. Our in house development of auto inspection equipment insures product conformity without the need for manual inspection and sorting. This enables us to maintain our competitive edge while meeting customer expectations.
As an active member of SAE we are constantly updating our internal specifications to reflect the latest SAE standard. This allows us to quickly make the latest advancements in fitting design and development available to our customers. We utilize state of the art test equipment during the manufacturing process and also conduct burst tests, impulse tests, cleanliness tests and salt spray analysis to insure our parts meet or exceed customer requirements.

Our Engineering staff is available to evaluate hydraulic piping systems, eliminate unnecessary components and leak paths, and establish the most efficient and economic selection of fluid connectors. In situations where a standard fitting will not suffice, we can assist with the design and manufacture of special fittings and provide prototype samples for evaluation.
World Wide Fittings is a Caterpillar certified supplier of excellence on three continents.

PRIMARY INDUSTRIES SERVED

• Construction Equipment
• Agriculture Equipment
• Mining Equipment
• Machine Tools
• Transportation Equipment
• Forestry Equipment
• Power Generation
• Marine Equipment
• Military Equipment
• Tube Bending and Fabrication
• Hose Assembly Manufacturers
• Compressor Manufacturers
